

Made in Baden-Württemberg

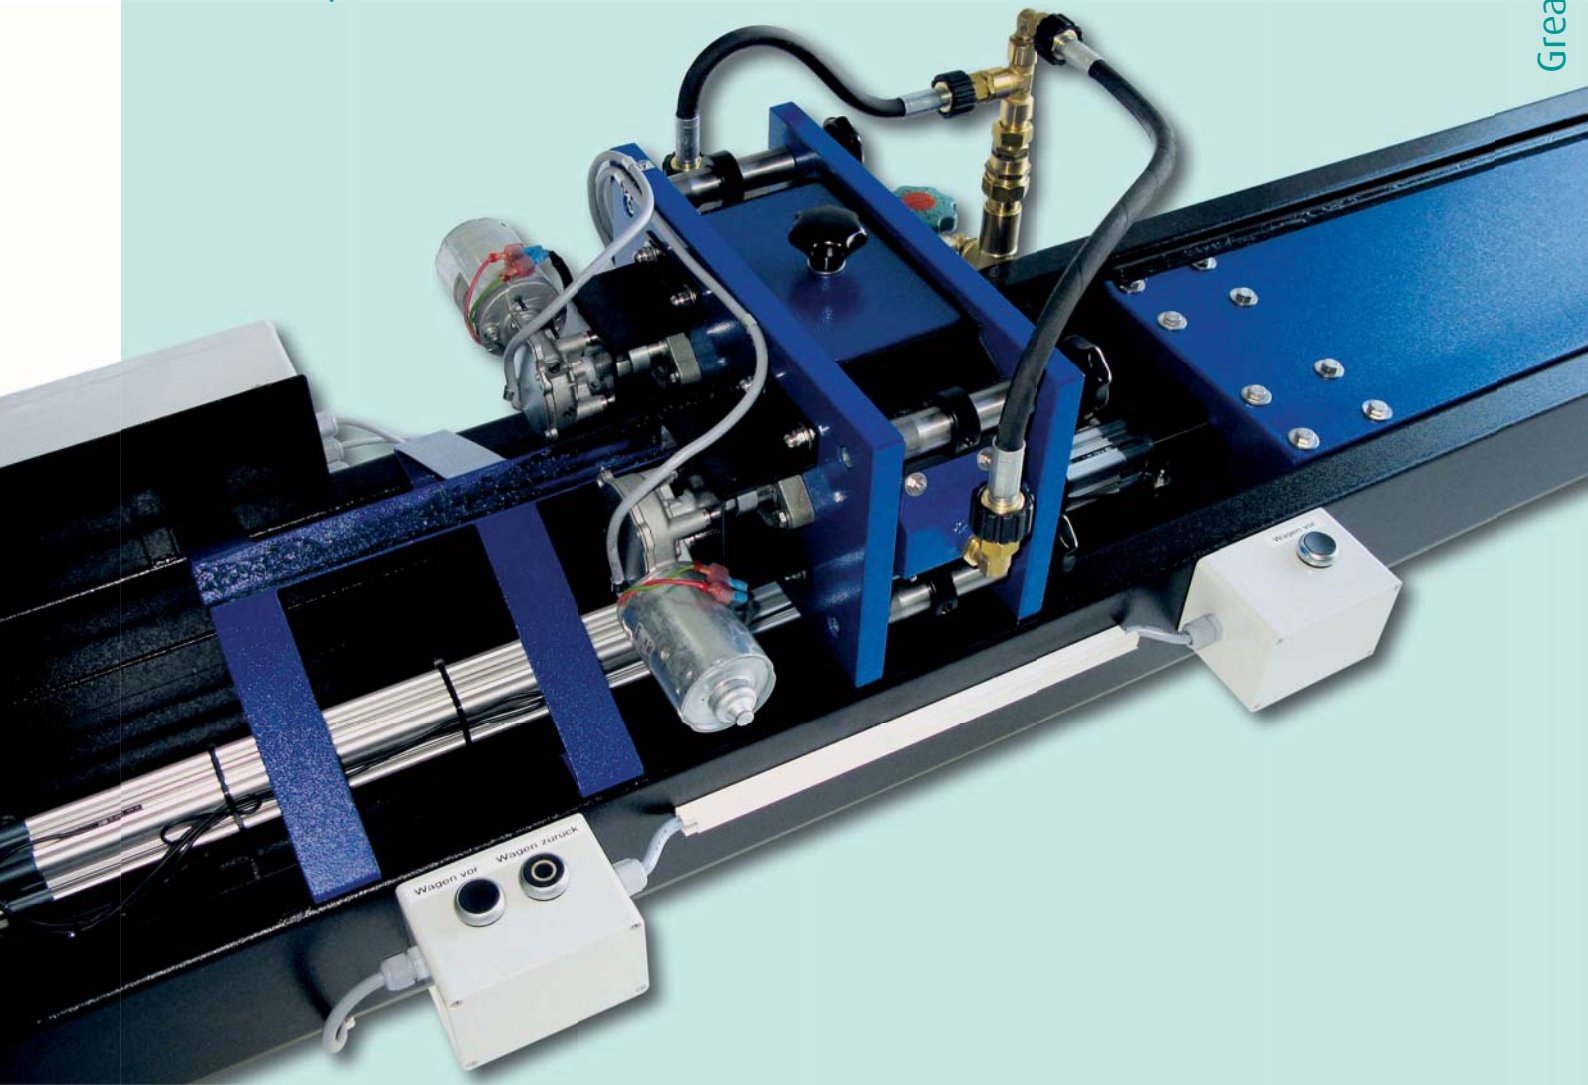

Our greasing machines are the result of our total commitment to quality, innovative technology, years of experience and consistent further development of tried and tested systems.

Greasing machine

Type spring 500-800-30

Length 2.200 mm
Width 500 mm
Height 400 mm
Weight 80 kg
Material ST 37 powder-coated

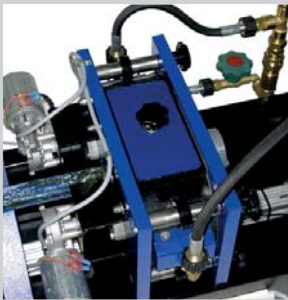

Greasing machine

Greasing machine

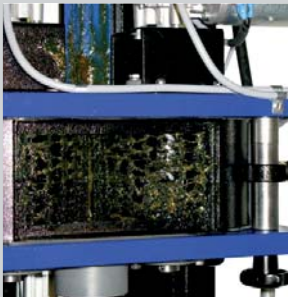

Type spring 500-800-30

Grease flow control valve
Solid construction, 20 mm
Steel plates.

High-pressure hose for grease
application.

Special rotating brushes for grease
application in an enclosed metal
housing.

Rotation direction and speed-
controlled 24 V DC motor.

Universal machine for springs.
Machine »carriage« with
pneumatic cylinder and 2-hand
operation.

Grease pump with time-
controlled solenoid valves.
